

# Shawn du Preez

## FULL-STACK & MOBILE DEVELOPER

BSc Computer Science & Information Technology student passionate about building full-stack web apps, mobile apps, and cloud-integrated systems. Skilled in combining backend engineering with clean UI/UX and data automation. Experienced in ASP.NET, Azure, Supabase, Kotlin, React Native, and Google Apps Script.

## EXPERIENCE

### FULL-STACK DEVELOPER – EVENTEASE

Emeris University

2025 - Present

- Built a Razor Pages web app with Azure integration for real-time venue bookings.
- Features: role-based access, dynamic uploads, double-booking validation.

### MOBILE DEVELOPER – PROOFLY/TRAILGUIDE

EIS retaining walls & Emeris University

2024 - Present

- Kotlin + ML Kit OCR / AI app with Supabase multi-tenant backend.
- Automated receipt-to-Google Sheets pipelines with analytics dashboards.
- Hiking companion app with offline maps, GPS tracking, weather integration.
- Supabase backend with AI route parsing and data sync.

### AUTOMATION ENGINEER

RiseCoaching

2025 - Present

- Built automation scripts linking Forms → Sheets with JSON parsing.
- Created dashboards for MBTI, Thinking Styles, and Career Field tracking.
